LED INDICATORS

Standby Mode

Speed Charge Mode
(charging speed over 45W)

Regular Charge Mode
(charging speed under 45W)

TROUBLESHOOTING

What do I do if the car charger does not work?

If you cannot charge your devices with HULKMAN CC 65 Car Charger, please try the following measures to come to a solution.

1) Check the circuit

Ensure that there is a power supply from the power outlet socket.

2) Check your devices

Ensure that your devices are not in the under-voltage condition or other error states.

3) Check the connection

Ensure that the car charger is connected to the cigarette lighter socket firmly (the LED indicator of car charger will turn white under normal conditions)

4) Replace the cable

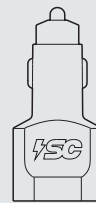

Use a HULKMAN cable, your device's original cable, or another certified cable
